AI Risk Analysis

Summary:

<think>

Okay, so I need to evaluate this personal loan application based on the given criteria. Let me go through each section step by step.

First, the summary should give an overview of the loan application. The borrower is Mohamed Elyes Tayechi, 24 years old, married, single, with a loan amount of 26,000 TND and a term of 24 months. His income is 5,000 TND, which seems low for his age. He has no debt-to-income ratio mentioned, so that's something to note.
